

My refrigerator is more than 10 years old and uses too much electricity which is why I am now exchanging it for another:

- ✓ I will carry out the free energy-saving check and someone will come to measure my refrigerator usage.
- ✓ With a new **A+++** refrigerator, I will save at least 200 kWh a year.
- ✓ I will receive a **150 euro voucher** for my new appliance and disposal of the old energy guzzler
